

S 15

BASS REFLEX SUBWOOFER

Description	<p>S 15 is a high-power, compact subwoofer system ideal for installations where the physically small size and impact of a 15" driver are desired. Extending the frequency response below 35Hz, this highly efficient design is capable of providing output levels normally associated with considerably larger enclosures. A system suited to music playback in applications ranging from clubs, bars and cafes, right through to theatres and corporate applications. The low-frequency transducer is a 15" woofer with a 2.5" voice coil. Its design is the result of the latest refinements in compact subwoofer production, resulting in a fast and controlled reproduction of the bass frequency range. It is particularly well-suited for high-quality multimedia applications.</p>		
Features	<ul style="list-style-type: none">› 500W AES power handling› 126 dB max SPL› 35 ÷ 200 Hz frequency range› 1 x 15" high-power woofer› High-quality plywood cabinet› Steel front grille with clothing› M20 standard pole mount in the top section of the cabinet› 4 pole EUROBLOCK connector (audio input and parallel link output)
