V-1-4K

VIDEO SWITCHER

PIDD 9 APR 2026

RRP € 1,670 EUR / £ 1,414.17 GBP

Preliminary RRP ex tax at launch date.

AVAILABLE JUL 2026

[MORE INFO](#) ►

WHAT IS IT?

Compact and powerful, the V-1-4K covers professional video production needs for in-person events, livestreaming, studio productions, and other applications.

The all-in-one V-1-4K is compact, easy to carry, and quick to set up, featuring 5-in/5-out HDMI connectivity for both 4K and HD and up to 4K USB streaming output. Its ROI (Region of Interest) mode lets users crop up to four areas from a single 4K source for multiple shots, while built-in audio mixing, PTZ camera control, and remote operation via dedicated apps streamline production. Paired with the Graphics Presenter software, it also enables polished titles and motion graphics, all while delivering 4K60p and HDR processing with the simple, intuitive operation the V-1 series is known for.

WHO'S IT FOR?

Small Events / House of Worship

Looking to shift from HD to 4K with easy-to-use video switcher.

System Integrator

Looking for a simple to operate 4K video switching solution for clients.

KEY BENEFITS

1 VERSATILE 4K I/O WITH STRESS-FREE CONNECTION

FEATURES

- All inputs have scaler that enables connection in various video signals format from HD to 4K without format converters.
- 5 outputs allow system flexibility on system configurations.
- In addition to PGM, Preview and Multi-view outputs, output channel 3 and 4 can be assigned any output bus and any input signal with 4K to HD down scalers.
- Up to 4K/60p USB streaming output.

2 EFFICIENT MULTI-ANGLE SHOTS WITH "ROI" FEATURE

FEATURES

- In "ROI" mode, allowing to create multiple shots cropping from a single 4K video source.
- This powerful feature elevates a production value without increasing camera count, complexity, or costs.
- V-1-4K Remote/RCS app helps cropping area setup with intuitive operation.

3 PRACTICAL FREE SOFTWARE OPTIONS

FEATURES

- V-1-4K supports Graphics Presenter and VenuSet.
- Graphics Presenter is a Windows based software that allows to create stunning titles and motion graphics with compatible Roland video switchers. The setup is easy – connecting PC and a switcher enables Fill and Key composition.
- VenuSet (iPadOS/macOS/Windows) allows a customizable solution that makes it easier to operate the V-1-4K.

TECHNICAL HIGHLIGHTS & CONNECTIVITY

THE BEST PRACTICAL OPTION FOR ENTRY-LEVEL 4K VIDEO PRODUCTION

Inheriting simple operability of V-1 series, V-1-4K is the industry first practical option of 4K video switchers in the entry market with easy-to-use operability. V-1 Series has been defining the entry-level video switcher market since 2004. V-1-4K will take over the role in 4K world.

VERSATILE I/O

All inputs have scalers and five outputs + USB streaming out. Output 3 and 4 allow assign a source from output buses and input sources with downscaling option to 1080p.

MORE SHOTS, LESS CAMERAS. STREAMLINE VIDEO PRODUCTION.

ROI feature enables having multiple shots by cropping specific areas from a single 4K camera source. It helps to reduce setup time and create more shots on a video production.

TRUE 4K/60P PROCESSING IN A COMPACT FOOTPRINT.

Best in class specification – 4K/60p processing with HDR support. The all-in-one design enables easy to carry and set up even a small video production space in a venue.

FREE VALUABLE SOFTWARE OPTIONS.

Graphics Presenter, VenuSet and full control apps support elevating video production quality from entry-level to professional users.

V-1-4K RCS (mac/Win)

Full control software

V-1-4K Remote (iPadOS)

Full control app

Graphics Presenter (Win)

Title/Motion Graphics software

VenuSet (iPadOS/mac/Win)

Customizable control app
